The mission of Chardon Local Schools is high achievement for all students where learning is our most important work.

On Monday Sept 11, Hambden's guest speaker was Naturalist Deb Marcinski, a friend and former colleague of Mrs. Stickley. Over several weeks, Mrs. Stickley brought in Monarch eggs, caterpillars and chrysalis's. The students had a chance to see the eggs hatch, watch the caterpillars eat milkweed (their host plant) and grow. Eventually, the caterpillar shed its last skin and revealed a beautiful green chrysalis, complete with tiny gold spots. After 8-12 days, the chrysalis becomes clear, with the adult monarch butterfly showing thru this skin. Each time a monarch emerges from the chrysalis, it was given several hours to dry before being released to begin its journey to Mexico. The adult monarchs that we see in late Aug, Sept and October are all migrating to Mexico for the winter.

If you want to see where the monarchs have been spotted on this journey, go to [www/journenorth.com](http://www.journenorth.com)

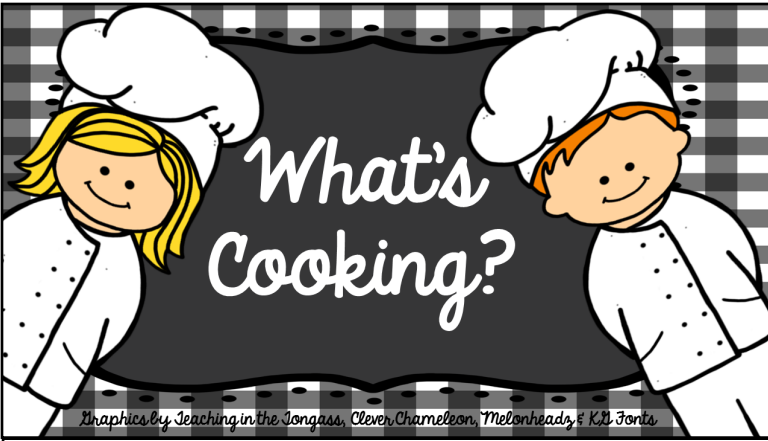

Monday Convocation

This year Hambden will host a different speaker every Monday morning. Our "Monday Convocation" will give our students the opportunity to hear from successful and innovative people from all around the community. This week we heard from Naturalist Deb Marcinski sharing her experiences in her field and how we are going to continue to use our Hambden 5-C's (Creativity, Critical thinking, Communication, Collaboration and Character) this year. If you have a suggestion of a community leader to speak, please contact me at the office.

Thank you,

Mathew Prezioso

Principal

Fall TimberNook Adventures 2017

These programs are fun extraordinaire! The children will be doing everything from participating in muddy Olympic games, having wild jousting battles, designing and baking a Wild Child pizza party, and creating magic potions for a Wizards Night Out. There will also be plenty of time for free play, cooking over an open fire, and games in the wild. These programs are sure to challenge the mind, while fully engaging the senses at the same time.
